

## Berwyn South School District 100

---

Dear Parents and Staff:

This letter is to inform you of the Berwyn South School District 100 asbestos management plan. It has been determined by the Illinois Department of Public Health (IDPH) and the Environmental Protection Agency (EPA) that asbestos is a potential health hazard and precautions should be taken to avoid disturbing any asbestos containing materials.

Congress passed the Asbestos Hazard Emergency Response Act (AHERA) in 1986. As of a result of this act, our facilities are inspected for asbestos containing building materials and the conditions of the materials are assessed. The AHERA law requires that visual surveillance of asbestos containing areas be completed every six months, with a complete inspection conducted every three years. The last three-year inspection was completed in 2024.

The Asbestos Management Plan is available at the District Office, located at 3401 S. Gunderson Avenue, Berwyn, IL. 60402.

Any concerns related to asbestos-containing materials should be directed to the Office of Buildings and Grounds (708) 303-4024.

Sincerely,

Berwyn South School District 100
